Hi Howard,

Thanks for speaking with us today. Attached are the Record of Decision and Remedial Investigation (RI) for the residential portion of the USS Lead Site. The RI has been redacted for personal privacy reasons. Another email (for file-size reasons) will include a redacted copy of the Feasibility Study (FS), as well as some additional figures. I will also follow up later today or early tomorrow with a copy of the 2014 Consent Decree and a write up that discusses a bit of the site history and EPA's considerations moving forward.

As discussed, EPA would appreciate HUD points of contact and workgroups for three issues: (1) utilities work; (2) indoor clean up; and (3) temporary and permanent relocation.

Let me know if you have any problems opening these files. If so, I can try sending them in smaller bits. Otherwise, let me know if you have any other concerns, or if EPA can provide you with any additional information. Thanks!

Best,

Leo
